Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Tuesday 12 Oct 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Rather cloudy for most.

This Evening and Tonight:
Clear in eastern England with a risk of some mist patches by dawn. Rather cloudy elsewhere with rain in north and northwest. Low cloud, mist and patchy fog for central and some western areas.

Wednesday:
A few light showers in central areas and some rain or drizzle in the northwest and far north. Elsewhere, dry with cloud breaking to give sunny spells, best in southeast.

Outlook for Thursday to Saturday:
Rain at times over northern parts of UK Thursday, easing south on Friday, and becoming brighter. More rain later Saturday in the northwest on Saturday, elsewhere dry, but often cloudy.
